Professional Summary

Junior Full Stack Developer with hands-on experience building web applications using JavaScript, Node.js, Express, PostgreSQL, HTML and CSS. Currently pursuing Higher Technical Degrees in Full Stack Programming and Software Development. Backed by nearly nine years of experience leading operational processes, improving workflows and solving complex business challenges. Also experienced in chatbot testing and AI-assisted workflows through academic and practical training. Focused on building practical digital solutions while combining technical skills, continuous learning and strong communication to deliver value for users and teams.

Technical Skills

JavaScript (ES6+) · TypeScript · Node.js · Express.js · Angular · HTML5 · CSS3 · PostgreSQL · MongoDB · REST APIs · Git · GitHub · Docker · JWT Authentication · Prisma ORM · Bootstrap · AI-assisted Development · Prompt Engineering

Practical Experience

Developed inventory management systems tailored for local commercial operations. Built web-based appointment scheduling platforms with integrated booking functionalities. Designed and deployed professional portfolios and custom business web solutions. Conducted chatbot testing and engineered AI prompts for specialized academic initiatives.

Professional Experience

Back Office Leader

V/N Global — Córdoba, Argentina

Jun 2015 – Feb 2024

Led and optimized operational processes for telecom services, improving productivity and workflow efficiency. Worked with process documentation, performance analysis, internal training and team coordination. Developed strong problem-solving, communication and analytical skills through daily operational decision-making and continuous improvement tasks.

Key achievements:

Improved productivity metrics by 45% and 60% through process optimization.

Created and maintained process documentation for internal teams.

Supported team performance through training, coordination and follow-up.

Analyzed operational data to identify issues, improve workflows and support decision-making.
